AN IMPROVED FEELING IN WALL STREET.

ON THE STOCK EXCHANGE-THE PRE-

MIUM ON CURRENCY LOWER. There was a distinct improvement in the tone of feeling in Wall Street yesterday, and the infusion of hopefulness was reflected in the course of the stock market. Dealings were light, but the list showed general advances, ranging from fractional gains to five points. The chief elements which contributed to the improvement were undoubtedly the favorable bank statement issued on Saturday, and the apparently increased chances of a speedy re-

peal of the purchase clause of the Sherman act.

The future of the gold movement seemed uncertain. Enormous amounts have been received, and large importations are on the way, but the continuance of the inward flow of the metal was not assured. The premiums on gold and currency in this country have been the incentive to importation, but these premiums suffered a reduction vesterday. Exchange rates are firm, and the Bank of England shows signs of a restlessness under the drain which may lead to restriction measures. Continental discount rates are abnormally high These conditions may be sufficient to check the im-

port movement. . That the increased money made available through gold imports and added bank circulation, however, has eased the situation is readily seen. Bank presidents yesterday said that the improvement had been a decided one. Much of the gold has been diverted from the banks of discount, or has gone to other sections of the country, but, wherever its lodgment may have been, the effect has been

an easing of the money demand.

THEIR SPEECH WAS DECIDEDLY SILVER. NEW-YORK DELEGATES TO THE CHICAGO BI-

METALLIC CONVENTION' MEET, TALK AND CALL A MEETING. The campaign of education to convince the East that silver in allopathic doses is the only remedy for the present financial fils will be continued at Cooper

Union on Thursday evening. It was so decided at the Hoffman House yesterday afternoon by the New-York delegates to the Chicago Eimetallic Convention, who sere appointed at the stormy and disastrons meeting held at the Fifth Avenue Hotel some time ago. The committee came back from the convention in Chicago eager to heard the gold bug in his den, and determined to maintain their organization for this purpose. HE KNEW THE PLIGHT OF THE MADISON SQUARE BANK.

HIS PRESENCE AT THE MEETING OF DIRECTORS JUST BEFORE THE SUSPENSION-THE EAST RIVER BRIDGE COMPANY

Evidence is accumulating that the State Treas

urer, Elliot Danforth, knew a great deal more of the affairs of the Madison Square Bank before its suspension than he has been willing to admit. A tory appeared yesterder which resulted in securing a statement from one of the directors of the the management of the institution. It was charged in this article that Frederic T. Uhlmann, one of in advance that the bank was in difficulty and had drawn out \$3,000 on the day that it was decided that the bank should suspend. It was said that he received this information from R. T. McDonald, the president of the Fort Wayne Electric Company,

who is a director in the bank.

Mr. Uhlmann hastened to deny this report yes-Mr. Unimum hastened to deny this report year terday immediately after it had secured circulation in Wall Street. He declared that he kept only his personal account there, and that the last check that he drew upon the bank had been to pay a board bill at the Hotel Savoy. Mr. Uhlmann further said that he knew almost nothing of the bank's affairs, as he took no part in the management. It was from Mr. McDonald that the information was scured which shows that Mr. Danforth was fully informed of the bank's condition and that he had ample time to withdraw the State's deposit long before he did, if he had cared to do so.

Mr. McDonald was seen by a reporter yesterday afternoon at his office in the Edison Building, in Regarding the story relating to Mr. Uhlmann he said to a reporter:

"Mr. Uhlmann did not have a large personal ac count in the bank, but as a director in the East River Bridge Company he was instrumenta! in seepartial operation to-day, as was also the Lockhart Iron | ing that the amount named, \$3,000, was drawn out. On the morning previous to the day when the notice was posted saying that the bank had suspended Mr. Danforth called upon me and asked me about the bank. I told him that I thought that it was all right. This was the second time that I had met him. I met him once before that in the Hoffman House, when he was introduced to me. After Danforth had talked with me he went over to President Graves, of the St. Nicholas Bank. I do not know what, was talked about there, but about 4 o'clock on the same afternoon I received a tele phone message from Cashler Thompson, of the Madison Square Bank. He said that the member of the Clearing House Committee were then at the bank and were examining its affairs.

"I telephoned immediately to Mr. Uhlmann, and bank. We reached there about 4:30 o'clock. I can-not say whether or not Mr. Danforth was there then, but of this I am sure: I saw him there few minutes after our arrival. The Clearing House committee was in session in a room at the sion in another room. Mr. Danforth constantly was going in and out of the room where the directors were meeting."

"Did you tell Mr. Danforth that the bank was likely to close, and that he would better draw out the State deposit?" was asked.

pression is that I did. He would have been a fool under the circumstances, knowing what he did, not to have been aware that there was trouble, and ing Mr. Danforth picked up his satchel and shook hands with me at the Broadway entrance to the bank. I presume that he went to Albany. I do not until a reporter informed them of it. There were total of about 53,000. All of them were discounted within the last six weeks. I think that the State account had been in the bank for the last two

It was within the last six weeks that the State Bank Examiner went through the Madison Square Bank and reported that the institution had a large number of badly secured loans outstanding. It is almost certain that the State Treasurer knew the advances which he did. It is certain, howcondition of the affairs of the Madison Square Bank before the notice of its suspension was posted. He was so familiar with the bank and its officers that he was running in and out of the directors' room when the members of the Clearing House Committee were in session in the same building, and he had been in consultation several hours before that with the directors of this institution.

Miles M. O'Brien and Mames G. Cannon, the two receivers of the bank, had their bonds approved yesterday by the judge of the court in which they were appointed. The bonds are for \$20,000 each, Both of the receivers went to the bank yesterday afternoon to take charge of it, but they were in-formed by Mr. Judson, the State Bank Examiner, that he was not ready formed by Mr. Judson, the State Bank Examiner, that he was not ready for them. This answer was thought to be an extremely strange one, inasmuch as the examiner has had a long time in which to make his examination. White neither of the receivers cared to be quoted, both of them looked upon his action as an exceedingly query proceeding. They will probably take possession of the bank today.

looked upon his action as an exceedingly query proceeding. They will probably take possession of the bank to-lay.

It was said yesterday on excellent authority that the bank would not resume. It was also said that the stockholders would not be assessed, and that the depositors would be paid in full.

The attitude which President filaut has assumed has been severely criticised by many persons who have interested in the bank, Instead of trying to allay the distrust felt in the bank, he has steadily refused to make any statement of its affairs, or to indicate in any way that he was making an effort to bring about a favorable settlement of the bank's affairs. In consequence there have been all sorts of rumors afloat, many of them, perhaps, unfounded, which have galand credence from not being denied. Some of them are of a particularly damaging character, and should have been promptly disproved if they were untrue. A Tribune reporter called at Mr. Blaut's home, No. 51 East Seventy-third-st, several times yesterday, but was unable to see him.

A L. Soulard, president of the German-American Real Estate Title and Guarantee Conpany, No. 31 Nassau-st. one of the directors of the bank, received a Tribune reporter at his office yesterday afternoon.

I shall take pleasure in repaying the loan at the proper time. As for Mr. Blaut's loans. I know nothing about them. I am sure that he could not have secured the sum of \$90,000 in one lump. If he got as much as that it must have been in small sums of a few thousands each. The directors might have passed a number of such small notes without noticing that the total was a large figure."

PRINT WORKS MAY REDUCE WAGES.

COMMITTEE TO DISCUSS THE SITUATION-THE SELLING PRICE BELOW THE COST OF PRODUCTION.

Fall River, Mass., Aug. 21.-At a meeting of promineat mill treasurers held this morning it was voted to appoint a committee to go to Boston to discuss the trade situation with other New-England textile manufacturers, and also to endeavor if possible to secure a uniform schedule of wages to be paid in the cotton industry. It is stated on the best authority that a reduction of 20 per cent in the wages paid here will be made as soon as the mills resume operations. This reduction has been under advisement since the expiration of contracts in July, but was not advocated strongly, owing, it is said, to a hope that both would improve as soon as Congress met. Instead of an improvement last week there was a marked decline in demand, and the annulling of contracts has become a daily occurrence. The print works of the country are carrying 2,000,000 of goods, and this vast amount does not in clude the 500,000 pleces held in the gray in this city. The time for the placing of fall contracts is rapidly going by, and the treasurers see no possible hope of an improvement before the last of the year.

The treasurers say it is not possible to manufacture regular goods at 2 5-8 cents, an actual selling figure to-day, and the only place they see to economize is to day, and the only place they see to comme to in cutting off wages in all departments. It is proposed to cut down the price of weaving from 21 cents to 10 12 cents per cut, and other wages in the different departments will be cut in the same proportion. Should business pick up within a few weeks action on the schedule will be deferred, but sooner or later a readjustment will be enforced.

COLORADO BANKS REOPEN THEIR DOORS.

Denver, Aug. 21.-The Union and People's National anks, which suspended on July 18 and 19 respectiver, opened their doors for business this morning, they aving compiled with all the requirements of the Controller of the Currency. It is expected that the other three suspended National banks will resume within a short time. The three banks that have now opened their doors have been enabled to resume business by the certificate of deposit plan. These certificates have seen issued in small amounts and they are passing among local business houses as cash. Each bank takes its own certificates for accounts due it. The result has been a material relieving of the financial stringency.

SUCCUMBS TO CINCINNATI.

GAMES YESTERDAY. New-York 12, Cleveland 3. | Louisville 12, Baltimore 9, Clueinnati 8, Brooklyn 1, St. Louis 9, Philadeiphia 8.

The 4,000 spectators at the Polo Grounds vesterday passed an afternoon of rare enjoyment, and yelled until they were black in the face. The game between the New-York and Cleveland teams added several noisy cranks to the already formidable list now seen daily at the Harlem grounds. It was the final game in this city between the New-York and Cieveland teams, and the Giants won their third straight victory to the intense delight of the onlookers.

The Cleveland men are a rough-and-tumble lot, and the

disacrecable and unconventional manner in which they play the game has made the team unpopular in every city outside of Cieveland. Captain Tebeau is the leader of the noisy mob, and a royal, piratical leader he is. No practices are too contemptible for Tebeau and bis men, and they invariably start in to make the umpire's

life as miscrable as possible.

Teleau became so abusive in the fourth inning that Gaffney, the umpire, fined him \$45 and then ordered him out of the game. Teleau is insuiting on the field, and out of the game. Telegral is instructed to the learner the League owes it to its patrons to discipline this hotheaded young man. After traffney had plastered also a fine of \$10 on McAleer, the Cieveland men subsided and played out the game like true sportsmen. The spiders gain nothing by such conduct, and Frank dee Hass

The game was remarkable in spite of the one-sided the longest ever seen, the ball clearing the ropes in right running catches. Petty pitched finely, having plenty of speed and superb control of the ball. Four of Cleveland's nine hits were made in the seventh inning, where the visitors scored their only runs.

running ever seen; indeed, its like was never before mad in this city. With Petty on third and Stafford on second, Ward bunted the ball in front of the plate, with the ides of scoring Petty and taking a chance of beating th The ball was passed to first and then back to the plate like a flash. The ball, Petty Stafford and Genson landed in a heap on the plate. Stafford had actually scored from second on the piay, and the crowd fairly held its breath. Stallord was badly injured, re-ceiving two ugly cuts in the face, which required several

THE GRAND LODGE TO OPEN ITS ANNUAL CON-VENTION HERE TO-DAY.

The Grand Lodge of the Independent Order of Odd Fellows of the State of New-York will begin its annual convention this morning in Scottish Rite Hall, Madison-ave, and Twenty-ninth-st. This session will be the twenty-eighth annual one since the union of the two grand lodges. The body meets, under the constitution, every third year in New-York City. Vital questions on the welfare

of the organization will be discussed, The order in this State numbers about 700 lodges, with a membership of more than 60,000. New-York City has 141 lodges, with 20,000 members, and Brooklyn fifty-three lodges with a membership of almost 9,000. The lodge will be called to order at 9 a. m. this morning, and after prayer by Grand Chaplain Le Roy C. Hayes, of Norwich, N. Y., general business will be transacted. Sessions will be held to-day, to-morrow and Thursday, from 9 to 12, and 2 to 5 o'clock. As only "past grands" and delegates from each lodge will be

admitted, it is estimated that about 3,000 or 4,000 Odd Fellows will be present. The installation of grand officers and the appointment of District Grand Masters will take place on Thursday. The grand officers were elected last March. They are: Grand master, Edward L. Gaul, of Hudson; deputy grand master, Sidney L. Row-land, Brooklyn; grand warden, Alfred A. Guthrie; grand secretary, James Terwilliger, New-York; grand treasurer, Charles A. Wehr, Brooklyn; marshal, William J/ Miner; Roth, New-York; conductor, Frederick H. grand guardian, Elmer W. THE COURTS.

FOR THE RIGHT TO SELL WORLD'S FAIR VIEWS. Kilburn & Davis, who have the contract for publishing photographs of the World's Fair, moved before Justice Van Brunt, of the Supreme Court, yesterday, for a permanent injunction restraining Underwood Underwood, of No. 206 Canal-st., from selling pictures of the buildings. It appeared on the argument that Kilbarn & Davis paid \$17,000 to the management of the Fair for the privilege of publishing inside and outside views of the buildings. The defendants admit that they sell pictures of the buildings, but say, they have a right to do s). Decision was reserved.
